***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Information Disclosure Statement***

The information disclosure statements filed September 15, 2003 and December 10, 2003 have been considered and have been made of record.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Biomacromolecules 2001,2,70-79, Shen et al.

Biomacromolecules, Shen et al discloses lipopolymers consisting of a poly(ethyloxazoline-coethyleneimine)(PEOX-PEI) backbone and alkyl-chain side groups and poly(ethyloxazoline-co-ethyleneimine-co-pentadecnyloxazoline) which anticipates the claimed invention. See page 71m left-handed column, paragraph 2, right hand column; paragraph 3; figure 2, page 74, left hand column, paragraph 1.

***Prior Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. These references are cited to show the state of the art of polyalkyleneimine copolymers; Nippon, Univ Nihon and Sri International.

Claims 7-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
